SUMMARY

- Python Full Stack Developer and Data Science enthusiast with hands-on experience in Python, Machine Learning, and Web Development.
- Strong foundation in Data Science, Deep Learning, and AI/ML concepts with practical project experience.
- Completed AI & ML Internship at Sisga Soft Technologies (7 weeks) with real-world industry exposure.
- Skilled in building predictive models, computer vision applications, and data visualization dashboards.
- Seeking an entry-level or internship role to contribute to real-world projects and grow as a developer.

EDUCATION

Sri Krishna Devaraya University, Anthapuram

Nov 2023 – Jul 2027

Bachelor of Engineering in Computer Science | CGPA: 8.45

TECHNICAL SKILLS

Programming Languages: Python, SQL

Libraries & Frameworks: Pandas, NumPy, Scikit-learn, Matplotlib, Seaborn

Web Technologies: HTML, CSS, JavaScript

Data & Visualization: Power BI, Tableau, Microsoft Excel

Tools & Platforms: Git, GitHub, VS Code

Data Science: Machine Learning, Deep Learning, Computer Vision

INTERNSHIP

AI & ML Intern – Sisga Soft Technologies

Duration: 7 Weeks

Technologies: Python, Machine Learning, Artificial Intelligence, Deep Learning

- Worked on real-world AI and ML projects under professional mentorship.
- Gained hands-on experience building and evaluating machine learning models.
- Applied deep learning techniques and data preprocessing in industry-level environments.

PROJECTS

Lane Detection Tracking for Self-Driving Vehicles

Jan 2025 – Jun 2025

Technologies: Python, Deep Learning, OpenCV, YOLOv5

- Built a lane detection system using deep learning and computer vision techniques.
- Used YOLOv5 to detect lanes, potholes, humps, and traffic signs from video frames.
- Applied Hough Line Transformation and Gaussian Blur to improve lane boundary accuracy.

Big Mart Sales Prediction

Jun 2024 – Oct 2024

Technologies: Python, Machine Learning, Pandas, NumPy

- Developed a predictive model to forecast product sales across Big Mart outlets.
- Applied Linear Regression, Decision Tree, and Random Forest algorithms.
- Visualized key sales trends using Matplotlib and Seaborn for business insights.

TRAINING

Full Stack Python Development – Naresh IT

Course Ongoing

- Learning Python, HTML, CSS, and JavaScript for full stack web development.
- Understanding backend development and database integration concepts.

CERTIFICATIONS

- NPTEL Certification – Internet of Things (IoT)
- Python for Life – Python Programming
